Objective

To find employment with a company where I can utilize my creative skill set in a comfortable atmosphere in which my experience will be an asset to the company while furthering my knowledge and abilities in the process.

Experience

DeutchLA – Software Display Artist/Developer – Playa Vista, Ca. 2011-2012

Worked close with Art Directors and Producers on animation and budgeting flash banners from a small k size up to a full takeover. Headed a team on the best practices on delivering the best experience through the campaign. Supported point roll & media mind on seamless deliveries.

Petrol Advertising - Flash Designer / Animator – Burbank, Ca. 2009 - 2011

Assisted art directors in determining best layout and animation for limited k sizes. Won pitches for big gaming sites and campaigns. Responsible for learning new technology on ad campaign applications and determining best ways for delivery as well as showcasing it to the clients.

Cannery Agency - Lead Flash Animator/Designer/Developer 2007-2009

In charge of creating websites using Flash with a general understanding optimizing video and audio and how it's presented across the web. Modularize HTML, CSS, JavaScript, and AS2 code for better management for quicker turnarounds and with the latest browsers.

Sapient - Flash Animator/Developer 2006-2007

Developed mini-site applications using Flash | HTML | CSS to showcase Sonystyle.com products. Closely supported graphics department in determining content and page layout for best experiences.

GENEX - Flash/UI Developer 2001-2006

Created web applications using ASP/HTML/DHTML/FLASH for web/kiosk devices. Used OOP in ASP to maintain a templated system using standard naming conventions and best practices. Integrated award winning sites for Honda/Acura, Toyota, and Amgen. Won awards on FWA for Acura's RSX Institute, Moon View Sanctuary, and Benjamin Moore Paints.
